We're delighted to announce the opening of our in-house nursery at the LB level near the Kennel Park area. Now our residents can embark on a green journey right within our condominium. This lush haven offers a wide variety of plants.

In our continuous efforts to promote environmental awareness, we recently celebrated Environment Day with a special activity in our ML gardens. A group of enthusiastic residents came forward to plant trees, embracing their role as caretakers of our beautiful surroundings. This initiative not only enhances the natural beauty of our gardens but also instills a sense of responsibility towards the environment in our community. Additionally, we've also built bund walls in the gardens of Tower A, B, C, and D to prevent soil aging, ensuring our surroundings stay lush and beautiful. Moreover, we take immense pride in maintaining a clean and inviting environment, which has earned us a certificate of appreciation from the BrihanMumbai Municipal Corporation.
